HOW TO ORDER

Four steps to the right product

1. **Find the bearing**
   Look up the make in this brochure, or read the number off the old bearing or from the parts book.

2. **Send the reference**
   Quote the Miles part number (for example 450.021 or 600.006), the OE number, or a bearing-brand number such as SKF or FAG.

3. **Add the details**
   Give the vehicle or axle model, the quantity, and the dimensions if the old bearing has no readable number.

4. **Confirm and order**
   UCT confirms the matching bearing, availability and price before the order is placed.
